- 3** Return samples to **ANY** PrimusLabs location for testing and you receive **NO** charge for the supplies!

Use our labels and receive our discounted shipping rates!

***Note shipping fees apply to all supply requests.**

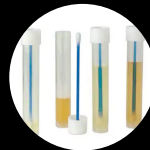

Water Bottles

Used to collect facility or field water samples.
* Analysis should begin within 24 hours from the time the sample is taken.

Sponges

Generally used for sampling areas visibly soiled or where high counts are expected such as walls, drains, floors, and more commonly used for Qualitative Testing.

Swabs

Used to collect samples in smaller or hard-to-reach areas.
