HiCap Sponges (QTY)

Air Plate (QTY)

Additional Information

- Please email requests to SupplyRequest@PrimusLabs.com
- Requests for overnight shipments must be received before 3:00pm to guarantee overnight delivery.
- Upon receipt, sponges and swabs should be stored in a refrigerator to maintain the temperature guidelines of 2°C to 8°C (or 35°F to 46°F).
- When shipping samples back, please use blue ice that has been frozen for a minimum of 24 hours to ensure environmental samples are below 10°C and produce is below 20°C (frozen produce must be below 0°C).
- * For water samples, analysis should begin within 24 hours from the time the sample is taken.

Analysis: _____
 Air plate request cut off time is 1pm daily.
